PERFORMANCE MATTERS

FLEET SPEC GUIDE - JOTTOFLEET.COM

For over 20 years, Jotto Desk has offered a variety of high quality products that are specifically engineered and thoughtfully designed to enhance the organization and ergonomics in the “mobile office”...the fleet vehicle.

To assist fleet workforces in performing their jobs safely & effectively, we design and manufacture high quality laptop mounts, heavy duty laptop mounts, rugged docking stations, mounting stations and SUV/truck bed cargo slides. Jotto Desk continues to redefine the mobile workspace and deliver maximum value.

Our laptop mount products feature a comfortable ergonomic design which allows you to use a laptop, rugged laptop or tablet with ease. The adjustable positioning features allow you to customize placement for optimum performance. Simply pull the laptop toward you to use when safely parked and store the device safely against the dash when driving.

Whether you need a Heavy Duty Computer Mount for rugged terrain, a traditional No Holes Computer Mount with a lockable A-MOD Desktop or any one of our other available products, please know that your Jotto Desk product is designed and manufactured for a custom fit in your vehicle.This ensures a proper product fit and optimum performance for years to come.

A-MOD DESKTOPS

ADJUSTABLE MOBILE OPERATIONS DESKTOP

CUSTOM FIT AND STRENGTH YOU CAN DEPEND ON.

A Jotto Desk Laptop Mount featuring the new A-MOD Desktop is the ultimate desktop solution to secure a laptop computer in a mobile environment. The fully adjustable A-MOD Desktop features a lightweight, yet rugged lockable design with superior ergonomics.

A-MOD Desktops feature a lightweight, yet rugged design, incorporating both high strength aluminum and composite materials. Conversely, we have mixed in steel where there is no substitute to the strength, structure and ruggedness that it provides.

All of the Side Clamps and Rear Clamps, which hold down the laptop, are made of case-hardened steel and for our lock we chose a high security, solid brass tubular lock. There is no real security when a lock can simply be jimmied or the clamps can be easily bent out and the laptop stolen. With this mixture of elements and the other changes, we are confident that the A-MOD Desktops provide the most rugged, safest and most flexible universal desktop to secure a laptop computer in a mobile environment.

Jotto Desk customers past, present and future will be able to enjoy the benefits of the A-MOD Desktops. Older Jotto Desk laptop mounts that utilized the ACD Desktop can be retrofitted with these new A-MOD desktops simply by ordering the part numbers listed below...kind of like putting a new engine in an older car. Present customers that are buying our laptop mounts with the old desktop can experience another level in security, convenience and adjustability with the A-MOD. Future customers that desired a locking mechanism, not offered on the old desktop, will now be able to evaluate the total Jotto Desk solution. The combination of our Laptop Mount price, ergonomics, quality and ease of installation with the New A-MOD Desktop make Jotto Desk the easy choice as your laptop mounting solution.

A-MOD STANDARD (w/GK PLATE)
450-4143
Laptop Fit Dimensions:
Width: 11.25” to 13.625”
Depth: 9.25” to 11” with extensions

GOJOTTO.COM
PERFORMANCE MATTERS

A.) A-MOD DESKTOP
Lightweight, yet rugged, this desktop secures your laptop computer at your fingertips. Customize the fit for your laptop and know that the locking mechanism ensures a secure fit.

B.) ARTICULATED SWING ARM
Positions your laptop right where you need it most. Work comfortably from the driver or passenger seat or even while standing. Store against the dash while driving.

C.) RATCHET HANDLE
Allows simple hand motions for quick lock and release of desktop and articulated arm positioning.

D.) TELESCOPING ROD & STAND ASSEMBLY
Makes height adjustment easy and sure. Stand removes in seconds when desk isn't needed.

E.) MOUNTING BASE
Provides the sturdy foundation from which the Jotto Desk is built. Installs in minutes with simple hand tools.

ADDITIONAL FEATURES:
- Heavy gauge steel for long term durability
- Black powder coat finish prevents rust
- Installs in minutes - no drilling required

NO HOLES COMPUTER MOUNTS

FEATURING THE CABLE-DOCK® DESKTOP

TRADITIONAL DESKTOP WITH NO HOLES INSTALLATION

The traditional Jotto Desk Computer Mount featuring the Cable-Dock® Desktop is a No Holes drilled, ergonomic, multi-adjustable swing arm desk used as a platform for mobile professionals in fleets of all professions to secure and comfortably use a laptop computer.

The Cable-Dock® securing system uses two nylon-coated stainless steel cables that wrap up and over the keyboard section of the computer for a firm and positive grip. The "Original" articulated swing arm enables you to pull the desktop over for comfortable operation, reducing back strain. Overall design allows you to sit and work comfortably in driver or passenger seat and store against dash while driving.

DOCKING STATIONS

Kodiak Mobile by JOTTO DESK®

Jotto Desk has done it again with the Kodiak Mobile Docking Station. We have taken it to the next level by making some key internal changes to our CF31 docking station. Now it is fully compatible with the Panasonic CF31/30/29/28 AND the Getac B300, which makes the CF-31 iDock is perfect for mixed fleets. Additionally, this docking station includes the 120 watt Power Supply and Power Management Circuitry as Standard Features...at no additional cost.

PANASONIC CF31/GETAC B300 IDOCK DOCKING STATION

STANDARD DOCKING STATION
450-4101

w/ SINGLE WIRELESS PASSTHROUGH
450-4102

w/ DUAL WIRELESS PASSTHROUGH
450-4103

STANDARD FEATURES:
INCLUDED AT NO EXTRA COST

- (5) USB 2.0 PORTS
- 120 WATT POWER SUPPLY
- (1) ETHERNET PORT
- SURGE SUPPRESSION
- REVERSE VOLTAGE PROTECTION
- LOW VOLT MONITORING
- AUTO ACTIVATION & SHUTDOWN
- TRANSIENT VOLTAGE PROTECTION
- USER CONTROLLED TIMED SHUTDOWN
- SLAM LOCK - THEFT PREVENTION

MIL-STD-810F: VIBRATION TESTING: MIL-STD 810F 514.5 COMPOSITE WHEELED VEHICLE

NO POWER SUPPLY NEEDED

NO CHARGE GUARD NEEDED

The CF53 docking station is based on the similar design as our ever popular CF31 docking station. The CF53 iDock includes a proven tough, rugged design and a new robust docking interface that is designed with a docking mechanism that gives the user the option to leave the docking station unlocked for rapid undocking.

JOTTOFLEET.COM - 877-455-6886

KDCF53 IDOCK DOCKING STATION
450-4111

STANDARD FEATURES: INCLUDED AT NO EXTRA COST

- (6) USB 2.0 PORTS (5 REAR, 1 FRONT)
- 120 WATT POWER SUPPLY
- (1) ETHERNET PORT
- LOW VOLT MONITORING
- AUTO SHUTDOWN TIMER
- SURGE SUPPRESSION
- AVALANCHE VOLTAGE PROTECTION
- 4 LED INDICATORS (FOR FIELD TROUBLESHOOTING)

The new KDCF-53 iDock's "auto dock" feature automatically latches the docking station so you no longer have to use the key to lock the computer into the dock. The key is just a preventive step to keep it locked from theft. The new CF-53 iDock has the smallest footprint in the industry, smaller than the laptop itself -- making it very easy to mount in the vehicle.

This unit is constructed of welded steel and features our internal port replicator & internal "intelligent" power management circuitry. All functions can be controlled and monitored at the tactile membrane control panel located at the front of the docking station. Surge suppression, avalanche voltage protection, reverse voltage protection, emi filtering, transient voltage protection, low voltage monitoring, auto activation and shutdown, user controlled timed shutdown are standard. This docking station is built to MIL-STD 810F standards.

MOUNTING STATIONS

TOUGHPAD FZ-G1 MOUNTING STATION

450-4136

ADJUSTABLE FOR VIEWING IN LANDSCAPE OR PORTRAIT MODE.
