WHY ACARI - FS?

OFFICER SAFETY

Acari Fleet Solution's signature, Vi (Visual Impact) Series was created to bring vehicle warning lights to eye level of on coming traffic. Our products are compatible with the most trusted names in the emergency lighting industry to offer the end-user an innovative product that can easily be added to your existing warning system.

SAVE TIME AND MONEY

Optimize your fleet using Acari Drill Free mounting. Save time and money by using our patented Drill Free mounting brackets. *A less invasive installation is an effective way to increase re-sale value and reduce vehicle down time.*

EFFICIENT INSTALLATIONS

Acari Fleet Solutions designs our products around a fast and efficient install. We focus on bringing you an upfitter friendly product your can trust in the field. Fleet Forward thinking is how we approach the design of our products and why our patented RVID lightstick mounts in average of 15 minutes.

R-VID™
AUG. MOUNTING TIME
15 min

Acari Fleet Solutions utilizes SOUNDOFF SIGNAL, MPOWER Fascia lighthead. This makes the RVID, as well as other Vi Series products, a simple addition to your existing warning system.
